DANIEL DEOGRATIUS SHAYO

Dar es Salaam, Tanzania | +255 749 828 255 | shayodaniel21@gmail.com | github.com/dannieldeogratias | dannieldeogratias.github.io

PROFILE

Fourth-year Computer Engineering student at Dar es Salaam Institute of Technology building full-stack, Android, networking, and applied computer-vision systems. Experienced in taking projects from requirements through implementation, testing, documentation, and public delivery. Seeking a 2026/2027 software or computer engineering internship.

SELECTED ENGINEERING PROJECTS

Touchline Sports Intelligence

Python | React | FastAPI | PyTorch | OpenCV | 2026

- Building a football analysis prototype that accepts match recordings, tracks players and the ball, generates annotated video, and displays movement on a tactical pitch.
- Implemented the web interface, local API, database, video-processing workflow, model training, and testing; improved ball detection through focused training and evaluation.
- Current work focuses on shot detection, camera changes, formation analysis, and player movement patterns. Development repository

Kitabu Digital Learning Portal

TypeScript | React | NestJS | Android | 2026

- Developing an offline-minded learning platform for Tanzanian schools with separate student, teacher, and parent experiences, learning resources, and an Android prototype.
- Current version is an interactive pilot under continued testing and development. Prototype | Public repository

Kikoba Digital

Kotlin | Android | SQLite | 2026

- Developing a local-first tablet application for community savings groups covering members, contributions, expenses, meetings, roles, and elections. The current version is a working prototype. Prototype

EDUCATION

BEng (Hons), Computer Engineering - Dar es Salaam Institute of Technology

Expected 2027

Fourth year. Coursework and projects across software development, computer networks, electronics, databases, operating systems, and engineering practice.

CISCO NETWORKING ACADEMY AND SECURITY TRAINING

CCNAv7 curriculum completed - Introduction to Networks; Switching, Routing, and Wireless Essentials; Enterprise Networking, Security, and Automation (badges granted November 2024).
Cybersecurity Essentials and **Introduction to Cybersecurity** - badges granted August-September 2025.

TECHNICAL SKILLS

Software	Python, Java, C, JavaScript/TypeScript, React, FastAPI, NestJS, REST APIs, SQL, SQLite, Git/GitHub
ML / Vision	PyTorch, Ultralytics YOLO, OpenCV, object detection, multi-object tracking, dataset auditing, GPU evaluation
Networks	IPv4/IPv6, subnetting, VLANs, routing/switching, OSPF, NAT, DHCP, ACLs, Packet Tracer, Wireshark
Security / Systems	Linux CLI, Nmap, OWASP fundamentals, vulnerability assessment, Docker/AWS fundamentals, Android/Capacitor

LANGUAGES

English - Fluent | Swahili - Native
