PROFILE

Computer Engineering student (DIT, 2023–2027) with CCNA certification and completed training in cybersecurity fundamentals. Beyond coursework, Computer Engineering student at Dar es Salaam Institute of Technology with strong foundations in networking, software development, and IT infrastructure. Cisco CCNA certified with hands-on experience in building practical solutions and troubleshooting technical systems. Seeking internship opportunities to apply technical skills, learn from experienced teams, and contribute effectively.

EDUCATION

Dar es Salaam Institute of Technology (DIT)

2023 – 2027

Bachelor of Engineering (Hons) in Computer Engineering

Third year · Ongoing

ST.Joseph's Cathedral High school

2021-2023

ACSEE A-level PCM

Marian Boys secondary school

2017-2020

CSEE O-level

Marian pre and primary school

2011-2016

CERTIFICATIONS & TRAINING

Cisco Certified Network Associate (CCNA) · Cisco Networking Academy / ITCOICT

Aug – Sep 2024

- Full CCNA curriculum (Modules 1–4): routing & switching, enterprise networking, security & automation
- Configured and troubleshot Cisco routers and switches; protocols include OSPF, EIGRP, NAT, DHCP, and ACLs
- Hands-on simulation with Cisco Packet Tracer; introduction to network automation and programmability

Cybersecurity Fundamentals Training

Aug – Sep 2025

- Network security principles: threat modeling, vulnerability assessment, and attack surface analysis
- Web application security — OWASP Top 10: SQL injection, cross-site scripting (XSS), CSRF, insecure deserialization
- Ethical hacking methodology: reconnaissance, scanning, exploitation fundamentals, and responsible disclosure
- Security tooling: Nmap (host discovery & port scanning), Wireshark (packet analysis), Burp Suite (web app testing)
- Cryptography essentials: symmetric & asymmetric encryption, hashing algorithms, TLS/SSL basics, certificate management
- Incident response workflow, security monitoring fundamentals, and social engineering defence techniques

→ *Actively building practical depth through CTF challenges and lab environments (TryHackMe, HackTheBox).*

TECHNICAL SKILLS

Networking: IP Addressing · Subnetting · VLANs · Routing & Switching · OSPF · EIGRP · NAT/DHCP · Cisco Packet Tracer

Cybersecurity: Vulnerability Assessment · OWASP Top 10 · Nmap · Wireshark · Burp Suite · Ethical Hacking Fundamentals

Software Dev: Python · Java · C · JavaScript | React.js · HTML/CSS | Spring Boot (learning) | Git & GitHub

Mobile Dev: Android packaging via Capacitor; cross-platform deployment of React apps as native Android APKs

AI & ML: Supervised/unsupervised learning · Neural network fundamentals · NumPy · pandas · scikit-learn · TensorFlow (intro)

Cloud & Infra: AWS fundamentals (self-study: EC2, S3, IAM) · Linux CLI · Cloud security concepts · Infrastructure basics

PRACTICAL EXPERIENCE

Cisco Certified Network Associate (CCNA) Training ITCOICT | Aug 2024 – Sep 2024

Completed comprehensive CCNA training covering networking fundamentals, IP connectivity, IP services, security fundamentals, and automation. Gained practical knowledge in configuring and troubleshooting routers and switches. Developed skills in subnetting, network design, and network protocols (e.g., OSPF, EIGRP, NAT, DHCP). Applied hands-on practice using Packet Tracer and simulation tools.
