PROFESSIONAL PROFILE

Fourth-year Computer Engineering student at Dar es Salaam Institute of Technology with practical experience in software development, computer networking, cybersecurity, IT infrastructure, and applied computer vision. Builds and tests web, Android, and local-first systems from requirements through documentation and delivery. Seeking a 2026/2027 internship in software development, computer engineering, networking, or a related technical role.

SELECTED ENGINEERING PROJECTS

Touchline Sports Intelligence - IN DEVELOPMENT *2026*

- Building a football analysis application that accepts match recordings, tracks players and the ball, generates annotated video, and maps visible movement to a tactical pitch.
- Implemented the analyst interface, local API, database, video workflow, model training, and evaluation. Current work covers shot accuracy, camera cuts, formations, runs, and build-up patterns. **VIEW PROJECT REPOSITORY**

Kitabu Digital Learning Portal - IN DEVELOPMENT *2026*

- Developing an offline-minded learning platform for Tanzanian schools with student, teacher, and parent experiences, learning resources, examinations, and an Android prototype. **OPEN PROTOTYPE**

Kikoba Digital - IN DEVELOPMENT *2026*

- Developing a local-first Android application for community savings groups covering members, contributions, expenses, meetings, roles, and elections. **OPEN PROTOTYPE**

EDUCATION

BEng (Hons), Computer Engineering - Dar es Salaam Institute of Technology *2023-2027*

Current fourth-year student.

Advanced Certificate of Secondary Education - St. Joseph's Cathedral High School *2021-2023*

Physics, Chemistry, and Mathematics (PCM).

Certificate of Secondary Education - Marian Boys Secondary School *2017-2020*

Primary Education - Marian Pre and Primary School *2011-2016*

CISCO NETWORKING ACADEMY AND CYBERSECURITY TRAINING

CCNAv7 curriculum completed - Introduction to Networks; Switching, Routing, and Wireless Essentials; Enterprise Networking, Security, and Automation. Cisco Networking Academy badges granted 24 November 2024.

Cybersecurity Essentials - badge granted 29 September 2025. **Introduction to Cybersecurity** - badge granted 29 August 2025.

PRACTICAL NETWORKING EXPERIENCE

- Configured and troubleshot simulated routers and switches using Cisco Packet Tracer.
- Practised IPv4 and IPv6 addressing, subnetting, VLANs, inter-VLAN routing, OSPF, EIGRP, NAT, DHCP, access control, wireless networking, and network security fundamentals.
- Used Wireshark and command-line tools to inspect traffic and support structured network troubleshooting.

TECHNICAL SKILLS

Networking	IP addressing, subnetting, VLANs, routing and switching, OSPF, EIGRP, NAT, DHCP, ACLs, Cisco Packet Tracer, Wireshark
Cybersecurity	Vulnerability assessment, OWASP fundamentals, Nmap, Wireshark, Burp Suite, ethical-hacking fundamentals
Software	Python, Java, C, JavaScript/TypeScript, React, HTML, CSS, FastAPI, NestJS, REST APIs, SQL, SQLite, Git and GitHub; learning Spring Boot
Mobile	Android development, Kotlin fundamentals, Capacitor and React packaging
AI and ML	Supervised and unsupervised learning, neural-network fundamentals, NumPy, pandas, scikit-learn, TensorFlow fundamentals, PyTorch, YOLO, OpenCV
Cloud and systems	AWS fundamentals, Linux, cloud infrastructure and security fundamentals

ADDITIONAL DEVELOPMENT

Continued project-based learning in full-stack development, Android delivery, model evaluation, secure development, CTF exercises, and technical documentation.

LANGUAGES

English - Fluent | Swahili - Native
